Data

What types of data are there?

Types of Scores

|	
Raw-indicates the number of points earned.	Scaled-raw score that has been converted onto a consistent and standardized scale.
Standard-Usually based on a scale that has a statistical mean (average) of 100. Therefore 68% of the population falls between 85-115 and considered *normal limits* of functioning.	Percentile Rank-percentage of scores that fall below a given score.

Types of Data

Summative-After instruction	**Formative**-During Instruction
Benchmark-During Instruction	**Diagnostic**-Prior to instruction

How is this data included in a GIEP?

Academic/Cognitive Strengths
Achievement Data
Progress on Goals
Aptitudes, interests, specialized skills, products and evidence of effectiveness in other academic areas:
Grades/Classroom Performance

How does the GIEP team know to recommend enrichment, acceleration, or a combination of both?

Demonstrated Achievement

Expected Grade Level Achievement
